NFF Aviation Services Warranty Policy

Repairs

Any component which has been repaired by NFF Aviation Services shall be covered by warranty for a period of 6 months from the date of installation of said component, or for a maximum period of 1,500 flight hours on a TSI basis, whichever occurs first.

Note: This warranty is applicable only to those parts and/or sub-assemblies repaired and/or replaced by NFF Aviation Services.

Overhaul

Any component which has been overhauled by NFF Aviation Services shall be covered by warranty for a period of 12 months from the date of installation of said component, or for a maximum period of 3,000 flight hours on a TSI basis, whichever occurs first.

Note: This warranty is applicable only to those parts and/or sub-assemblies repaired and/or replaced by NFF Aviation Services.

Re-certification

Component previously repaired or overhauled by NFF Aviation Services that have not been installed during a 12 month period from the date of original certification, may be tested and re-certified with an updated 8130-3 tag upon request by the customer who generated the original repair order at no additional cost. This re-certification does not impact the repair or overhaul warranty.

Disclaimer: The re-certification process does not cover OEM document revisions which may affect components functionality as a result of testing changes. This does not include implementation of AD's and/or SB's issued after the original date of certification.

Bench Test / NO Fault Found

Units that are tested only and are found to be serviceable in accordance with the Original Equipment Manufacturers' (OEM's), Component Maintenance Manual (CMM) tolerance and specifications will not be covered by warranty.

Clarification

NFF Aviation Services liability under the terms of this warranty is limited to the repair / overhaul of components performed at its facility for any defect to the extent necessary to return the unit to a serviceable condition. NFF Aviation Services shall not be obliged to provide warranty for any repair of overhaul if examination discloses that defects or the unserviceable condition is attributed to shipping, storage, improper handling, mis-installation, or any other action which may have consequently caused component failure subsequent to leaving NFF Aviation Services repair facility.

Finally, customer component repairs or overhauls at NFF Aviation Services, that contain buyer furnished part:

- Customer furnished parts **will not** be covered under warranty
- Customer furnished parts trace paperwork must be approved by NFF Aviation Services' QA Dept.
